

Technician Electronics

Electronics Technician

Laserdyne Pty Ltd develops and manufactures land, sea, and air-borne products for military and paramilitary applications. The product range of electro-optic systems includes laser rangefinders, flat panel displays and digital recorders. Established on the Gold Coast, Queensland, for more than 30 years, Laserdyne has a successful history in research, design and development in military and paramilitary products.

Laserdyne products are successfully deployed on ground vehicles, ships decks and helicopters. They are exposed to everything from North Atlantic winters to Middle Eastern deserts, regularly being iced up, washed by ocean waves and baked by equatorial sunlight. Laserdyne operates with well-established partnerships in Europe, the United Kingdom, the Americas and Asia.

We currently have vacancies for Electronics Technicians to carry out electronic processes.

Duties include, but are not limited to general electronic assembly with strong component knowledge, soldering, testing and some mechanical assembly.

To be considered for the Electronics role, you must be able to carry out small assembly work; be competent using a soldering iron; possess fine motor skills, with great hand and eye coordination. Previous experience as an Electronics Technician, Laser Optics and/or PCB debugging skills is required.

Ideally, you will have good written and oral communication skills, work in a team with the ability to work on your own. Laserdyne is an ISO 9001 accredited company, as an employee you must work to Quality Standards following company guidelines and standards.

You will need;

- Australian Citizenship for Security clearance purposes.
- Relevant tertiary qualifications are required.
- The ability to work in a team and independently.
- Strong technical English skills, both written and spoken are essential.

If you think you are the right candidate to join our Electronics team, please submit your resume with a covering letter addressing the questions below. This position is permanent Full time. Laserdyne is an equal opportunity employer. Only application shortlisted will be contacted
